Description:

The most expensive parts in the APU are as follows:

Part	Approximate Value in USD
Combustion Liner and NGVs	150.000
LLP parts with blades	220.000
APU Systems for: ignition, starting, oil, fuel, air	100.000

--	---------------------------	---

Calculation of the APU value:

New APU value is approx. 700.000 USD

Combustion Liner (can withstand 20.000 APU cycles): 150.000 USD

LLPs (can withstand 20.000 APU cycles): 200.000 USD

OH (At 20.000 APU cycles): 100.000USD

APU value is 250.000 USD + (pro rata of 20.000 APU cyc)\*450.000USD

Because the subject APU has accumulated 16.668 APU cycles is its value:

$250.000\text{USD} + ((16668/20000)\text{APU CYC}) * 450.000\text{USD} = 250.000\text{ USD} + 375.030\text{ USD} = 625.030\text{ USD}$
